ON BOARD Final Event

Building Educational Innovation Networks

12th May 2021 – ONLINE

Capturing learnings and achievements from the Educational Innovation Network transfer experience

ON BOARD is an URBACT Programme Transfer Network co-financed by the ERDF where 6 European cities have shared the knowledge and experience to build local **Educational Innovation Networks**.

Based on **Viladecans (Spain) Educational Innovation Network**, a city project that fosters **innovation in education** by promoting **cooperation among local agents**: public administrations, teachers, students, families, businesses and other members of the community, ON BOARD project supported its transfer to 5 cities across Europe (Albergaria-a-Velha – Portugal-, Halmstad –Sweden-, Nantes –France-, Poznań –Poland-, and Tallinn –Estonia-).

After 2 years of common sharing and learning, ON BOARD Partner cities are willing to **share their main learnings and achievements** in the process of building (and improving in the case of Viladecans) their Educational Innovation Networks.

Join us next 12th May in the online Final Event!

This is an open event for anyone interested to:

- See ON BOARD cities' experience during the transfer process and creation of their Educational Innovation Networks (what was successful and what did not work);
- Learn how new collaborations among schools, teachers, headmasters, families, business, universities or local entities were established;
- Get to know some interesting educational projects to boost interaction among different city agents;
- Get to know their main learning and conclusions.
